

Commercial Display Range

One-page guide for 16:9 commercial displays and 21:9 ultrawide displays

This guide summarises the display families C9 GROUP can help shortlist, deploy and manage with Lumina. It is deliberately high-level: final model selection should still be validated against orientation, brightness, operating hours, mounting, connectivity and site support requirements.

Range	Models highlighted	Size / format	Verified product facts	Best-fit use
Essential 4K	CDE4314-2C to CDE8614-2C	43, 50, 55, 65, 75, 86 inch 16:9 4K UHD	500 nits, 24/7 operation, landscape or portrait orientation, Android 14 platform, ProAV remote control.	Always-on signage, retail walls, education halls and customer-facing communication.
Presentation	CDE4330, CDE5530, CDE6530, CDE7530, CDE8630, CDE9830	43 to 98 inch 16:9 4K UHD	USB-C on supported models, wireless casting, central device management and flexible room deployment.	Training rooms, retail collaboration zones, reception and education environments.
Professional	CDE6531-1C to CDE9831-1C	65, 75, 86, 98 inch 16:9 4K UHD	500-nit class commercial panels, 24/7 operation, Android 14 platform options, 8GB RAM on listed range, built-in speakers.	Large-format retail, hospitality, healthcare, campuses and managed multi-site estates.
Ultrawide	CDE92UW, CDE105UW	92 and 105 inch 21:9, 5120 x 2160 class	21:9 canvas for wider signage and collaboration, 24/7 operation; CDE105UW includes USB-C with up to 100W power delivery.	Reception signage, hospitality messaging, command spaces and premium wide-format communication.

C9 deployment note: Confirm panel size, orientation, mount type, media input plan, network access, content ownership and support SLA before final quotation.
